FOOL PROOF CURE FOR THOSE WOUNDS THAT JUST WON'T HEAL

A fantastic old time cure that REALLY works for those wounds that just will not heal .
Taken from an article in the Celebrating Greyhounds Magazine.

Clean the wound, and let air dry, then apply a coating of MILK OF MAGNESIA (yes that's what I said) MILK OF MAGNESIA. Once dry, wrap the wound loosely. Do this TWICE a day until healed. This is simple and it works!! Save all those trips to the vet and too many antibiotics. This old time remedy will save the day every time!!
