

FOREVER HOME GREYHOUND ADOPTIONS

PROUDLY SERVING THE ENTIRE NORTHEAST REGION!

VETERINARIANS

Your choice of veterinarian is an important decision. Try to locate a vet who has worked with greyhounds. Greyhounds require only one fifth of the anesthesia that would be used on another dog of the same size. This is because they are lacking certain enzymes, which break down anesthetic in their systems. It is very important that your vet knows this, as an overdose can be fatal. **If you are unsure, ASK your Vet, or call Paula 518 261 7025 for a referral to a Greyhound safe Veterinarian!**

Your Greyhound should have a heartworm test and physical once yearly. Heartworm meds should be used April thru November only. Rabies vaccines should be given every 3 years, and if you choose to administer the DHLPP series they should only be administered every 3 years as well.

Below, You will find a list of Veterinarians that are approved and recommended by Forever Home Greyhound Adoptions, sorted by area:
